

BALAJI.M

JUNIOR FRONTEND DEVELOPER

📞 8015219775 ✉ connectbalajidev@gmail.com 📍 Chennai

Objective

I am an aspiring Frontend developer with a passion for creating user-friendly websites and I am quite familiar with some web technologies I am looking for an internship where I can leverage my skills and implement my knowledge in the real world. I aim to learn from experienced professionals and gain hands-on experience in web development.

Skills

- HTML
- CSS
- JAVASCRIPT
- REACT(BASICS)
- JAVA(BASICS)
- FIGMA
- GIT AND GITHUB

PROJECTS

LUCKY-DICER

- A simple and interesting two-player dice game developed by using HTML, CSS, and JavaScript
- The first one to get the fifty points wins the game with some twists and turns
- This project helped in understanding the DOM manipulation

WHERE AM I

- A website has a single button in it. A click of that button shows your current location and renders your country flag
- It is built by using JavaScript to understand the API calling and Asynchronous nature of JS

SEARCH-AI

- currently working on this project where you can find the collection of some interesting Ai's
- It has a description of an Ai and its direct link to visit the particular website
- completely frontend based project
